# Safety Data Sheet

Effective Date: June 1, 2012

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND COMPANY/UNDERTAKING         Material Name       : Shell Sunlight Grease 3         Recommended Use       : Lubricating grease.         Manufacturer/Supplier       : Showa Shell Sekiyu K.K.         3.2. Daiba 2-chome, Minato-ku, Tokyo, 135-8074, Japan         Telephone/Fax       : Refer to end of this document.         Emergency Telephone       : Refer to end of this document.         Emergency Telephone       : Refer to end of this document.         SDS Code       : 611013         2. HAZARDS IDENTIFICATION       GHS Classification         GHS Classification       : NOT HAZARDOUS         GHS Classification       : NOT HAZARDOUS         GHS Classification       : Not greautionary phrases.         Symbol(s)       Signal Words         Signal Words       : No precautionary phrases.         Prevention       : No precautionary phrases.         Other Hazards       : Not classified as flammable but will burn.         not result in       : Please see Chapter 4 - 8 before use for Prevention/Response/Storage/Disposal.         classification       Used oil may contain harmful impurities.         3. COMPOSITION/INFORMATION ON INGREDIENTS       Substance or Mixture         Substance or Mixture       : Mixture         Chemical Pormula	
Material Name       : Shell Sunlight Grease 3         Recommended Use       : Lubricating grease. according to GHS Data not available.	
4. FIRST AID MEASURES	
<b>General Information</b> : Not expected to be a health hazard when used under normal conditions.	
<b>Inhalation</b> : Remove casualty to fresh air and keep at rest in a position comfortable for breathin	athing
Cover with blanket to keep warm and rest in a quiet surrounding. Seek immediate	ate
medical advice and attention.	
Skin Contact : Wash skin with large amount of water using soap.	
Eye Contact : Rinse cautiously with clean water for several minutes. Remove contact lenses, if	if
present and easy to do, and continue rinsing. After rinsing for a minimum of 15	
minutes, seek medical advice and attention.	)
Ingestion : Without inducing vomiting, call a doctor for treatment. If mouth has been dirtied, cle	
with water.	
Most Important : If swallowed, may irritate mucous membrane of stomach and induce vomiting.	
Symptoms/Effects, Acute Inhalation if mist may cause feeling ill. Skin contact and eye contact may cause	
	d, clean
& Delayed irritation.	d, clean
Immediate Medical : Treat symptomatically. Call a doctor or poison control center for guidance.	d, clean
Attention, Special	d, clean
Treatment	d, clean
	d, clean

## **5. FIRE FIGHTING MEASURES**

Clear fire area of all non-emergency personnel.

Suitable Extinguishing	: Concentrated strong liquid in mist and powder forms, carbon dioxide and foam. Use
Media	powder and carbon dioxide may be used small fires only. Effective to use foam to
	shutdown the air in a large fires.

Shell Sunlight Grease 3 Code:611013 Date:June 1, 2012 Page.2/5	
Unsuitable Extinguishing Media	: Do not use water in a jet.
Specific Hazards Arising from Chemicals	<ul> <li>Hazardous combustion products may include: A complex mixture of airborne solid and liquid particulates and gases (smoke). Carbon monoxide. Unidentified organic and inorganic compounds</li> </ul>
Fire fighting instructions	: Water the surrounding equipment to cool them down. Cordon off the affected place and its vicinity to all, except the concerned parties.
Protective Equipment & Precautions for Fighters	: Ensure to wear protective equipment and approach from windward.

#### 6. ACCIDENTAL RELEASE MEASURES

0. ACCIDENTAL RELEASE MEASURES		
Avoid contact with spilled or released material. For guidance on selection of personal protective equipment see		
Chapter 8 of this Material Safety Data Sheet. See Chapter 13 for information on disposal. Observe the relevant local		
and international regulations		
Personal Precautions,	: Avoid contact with skin and eyes. Prepare suitable equipment and materials.	
Protective Equipment and		
Emergency Procedures		
Environmental	: Use appropriate containment to avoid environmental contamination. Prevent from	
Precautions	spreading or entering drains, ditches or rivers by using sand, earth, or other	
Flecaulions	appropriate barriers. In event of entering in the sea, extend oil fences to prevent from	
	spreading, and sop up with absorbent materials. Use chemicals and/or detergents,	
	they must satisfy technical standards as set by the Ministry of Land, Infrastructure and	
	Transport / Ministry of the Environment.	
Methods and Material for	: Promptly remove all ignition sources and stop leakages. In a small leakage, absorb	
Containment and Clean	and recover by use of soil, sand, sawdust and waste clothes. In a large leakage,	
Up	cordon off the danger zone, prevent from entering and enclose it with sand bank and	
	stop outflow. Cover liquid surface with foam, and recover liquid into containers.	
Additional Advice	: Local authorities should be advised if significant spillages cannot be contained.

#### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Eye Protection Skin and Body

Protection

If the American Conference of Governmental Industrial Hygienists (ACGIH) value is provided on this document, it is provided for information only. Equipment : Seal or install ventilations for mist occurs. Install eye shower and body shower near working site. : Not specified **Standard Concentration** Control : Japan Society for Occupational Health(2010)<sup>(1)</sup> 3mg/m<sup>3</sup> (Oil mist, mineral) **Occupational Exposure** 5mg/m<sup>3</sup> (Oil mist, mineral) ACGIH(2010) TWA[Inhalable fraction.]<sup>(2)</sup> Limits **Protective Equipment** Skin protection not ordinarily required beyond standard issue work clothes. : **Respiratory Protection** : No respiratory protection is ordinarily required under normal conditions of use. Use appropriate equipment in response to the circumstances. Hand Protection : Use oil-proof protective hand gloves under prolonged or repeated skin contact. : Wear safety glasses or full face shield if splashes are likely to occur.

: Use oil-proof/long sleeved clothing under prolonged usage.

Appropriate Sanitary	: Remov	
Measures:	launde	

: Remove immediately all contaminated clothing. Contaminated clothing must be laundered before reuse.

9. PHYSICAL AND CHEMIC	
Physical state	: Semi-solid.
Colour	: Light yellow.
Odour	: Characteristic mineral oil
рН	: Not applicable.
Initial Boiling Point	: Expected >250°C
Pour point	: < Data not available°C
Flash point	: ≥ 200°C (SETA)
Upper / lower Flammability	
Auto-ignition temperature	
Density	: Approx. 0.9g/cm <sup>3</sup> (15°C)
Solubility	: Water: Negligible. Other solvents: Data not available
Decomposition Temperatu	
	: Data not available
Vapour pressure	
Vapour density	: Data not available. Expected >1
n-octanol/water partition coefficient (log Pow) : Data not available	
Evaporation rate	: Data not available
10. STABILITY AND REACT	
Chemical Stability	: Stable under normal condition.
Hazardous Reactivity	
Conditions to Avoid	: Avoid contact with halogens, strong acids, alkalis, and oxidizing materials.
Incompatible Materials	: Data not available.
•	
	n : Hazardous decomposition products are not expected to form during normal storage.
Products	Generates smoke, carbon monoxide, sulfurous acid gas etc. during combustion.
11. TOXICOLOGICAL INFO	RMATION
Basis for Assessment	Information given is based on data on the toxicology of highly refined mineral oils.
Dusis for Assessment	Toxicological information on product is not available. Components contained above cut-
	off value is described on Chapter 3.
Acute Toxicity	
Acute Toxicity	
	2 Dermal Expected to be of low toxicity: $LD_{50} > 5000 \text{ mg/kg}$ , Rabbit <sup>(3)</sup>
	3 Inhalation(Vapour) Data not available
	4 Inhalation(Mist) Low toxicity: $LC_{50} > 5 \text{ mg/l}$ , 4h, $Rat^{(3)}$
Skin Corrosion/Irritation	
	: Not classified as a skin irritation (rabbit test). <sup>(3)</sup> Prolonged/repeated contact may cause
	defatting of the skin which can lead to dermatitis.
Serious Eye	
Serious Eye Damage/Irritation	defatting of the skin which can lead to dermatitis.

### **12. ECOLOGICAL INFORMATION**

Basis for Assessment	Ecotoxicological data have not been determined specifically for this product. Information
	given is based on a knowledge of the components and the ecotoxicology of similar
	products. Components contained above cut-off value is described on Chapter 3.
Caution	: Poorly soluble mixture. May cause physical fouling of aquatic organisms.
	The Water Accommodated Fraction (WAF) is applied following tests
Toxicity	: Fish(Fathead minnow, 96h) LL <sub>50</sub> >100mg/L <sup>(3)</sup>

She	Il Sunlight Grease 3 Code:611013 Date:June 1, 2012 Page.4/5
Acute Aquatic Toxicity Chronic Aquatic Toxicity Mobility	<ul> <li>Fish(Fathead minnow, 14d) NOEL &gt;100mg/L<sup>(3)</sup></li> <li>Crustacea (Daphnia magna, 48h) EL<sub>50</sub>/NOEL &gt;10,000mg/L<sup>(3)</sup></li> <li>Crustacea (Daphnia magna, 21d) NOEL &gt;10mg/L<sup>(3)</sup></li> <li>Algae(Pseudokirchneriella subcapitata) NOEL &gt;100mg/L<sup>(3)</sup></li> <li>In a static 4-day microorganism luminescence inhibition study, no significant luminescence inhibition was observed.<sup>(3)</sup></li> <li>Not expected to be a hazard.</li> <li>Not expected to be a hazard.</li> <li>Generally floats on water.</li> </ul>
·	: Lubricating oil components have estimated log Koc >3, indicating these components are likely to be adsorbed onto soil and sediment and are not likely to leach to ground water.
Persistence/degradability	: Another lubricant base oil was determined to be inherently biodegradable but not
Bioaccumulative Potential	<ul><li>readily biodegradable, with a mean degradation of 31% by day 28.</li><li>Not available as highly refined base oil.</li></ul>
<ul> <li>13. DISPOSAL CONSIDERATIONS         <ul> <li>Material Disposal</li> <li>1 Waste disposal yourself or entrust the industrial waste treatment company who obtained the prefectural governor's permission or municipal corporation. Disposal should be in accordance with applicable regional, national, and local laws and regulations.</li> <li>2 Do not dispose into the environment, in drains or in water courses.</li> <li>3 For landfill disposal, destroy by fire and confirm cinders agreed to Waste Disposal Law.</li> <li>4 In event of burning this material, ensure to carryout work in safe place with guards in position, and select a method that would not cause any harm or damage to others</li> </ul> </li> </ul>	
Container Disposal	<ul><li>during combustion or explosion.</li><li>Purify and recycle or performs suitable disposal in accordance with the standard of related laws and regulations. Disposal with remove content completely.</li></ul>
14. TRANSPORT INFORMAT International Restriction UN Class UN Number Other Information Domestic Restriction Land Fire Service Law Container: Sea Air Specific safety measures and conditions for transportation	<ul> <li>Not applicable.</li> <li>Not applicable.</li> <li>This material is not classified as dangerous under IMDG/IATA regulations.</li> <li>Since domestic laws and regulations shown below are applicable, containers and transportation methods shall be required to follow each and every regulation.</li> <li>Not considered as dangerous goods.</li> <li>If product classified as dangerous goods, use containers (other than tanker, tank car and tank truck) for transportation usage, shall meet the Clause 2, Notice Attachment 3, concerning dangerous materials.</li> <li>Ship Safety Law: Not Dangerous Goods.</li> <li>Civil Aeronautics Act: Not Dangerous Goods.</li> <li>Transport remarkably with containers may not cause friction or agitation.</li> <li>Display signage on vehicle and provide with fire fighting equipment, if and when required to transport more than the specified quantity. Total piled height of vehicle shall be less than 3 meters.</li> <li>Consolidation of this material with dangerous goods belonging to the 1st and 6th Classification is prohibited.</li> <li>Abide by other laws and regulations that are applicable.</li> </ul>
International Information EINECS/ELINCS (EC) TSCA (USA) METI (JAPAN) Domestic Information Fire Service Law Marine Pollution Protection Law Sewage Control Law Water Pollution Prevention Law Waste Disposal and Public Cleaning Law	<ul> <li>All components listed or polymer exempt.</li> <li>All components listed or in compliance.</li> <li>All components listed or in compliance.</li> <li>Not considered as dangerous goods.</li> <li>Waste Oil Regulation.</li> <li>Mineral Oil Disposal Regulation. (5mg/L)</li> <li>Oil Disposal Regulation. (5mg/L)</li> <li>Industrial Waste Regulation.</li> </ul>

Material Safety Data Sheet (MSDS) about hazardous chemical is provided for a entrepreneur as reference information for safety handling. Refer to this document and perform suitable handling. Nothing in this document shall reduce the user's responsibility to satisfy itself as to the suitability, accuracy, reliability, and completeness of such information for its particular use. There is no warranty against intellectual property infringement.

The information contained in this document is based upon data believed to be reliable through our supply chain at the time. So, Showa Shell Sekiyu could not guarantee all about the contents. This document is based on JIS Z7250:2005, and is not a guarantee of safety. Contents of MSDS updated periodically. MSDS compliance is required as a rule to all business enterprises engaged in transaction of chemicals (including products containing them) with other businesses. Retailer/ Wholesaler must provide newest MSDS to customers.
