Notes:

- 1) All lug mount suspenders orient the hoist perpendicular (90°) to the trolley beam.
- 2) Combinations are for both cord and pendant TCR models.
- 3) TCR6000-2 will not fit with the manual hoist version of the 8 ton geared trolley, code number GT080M.
- 4) Refer to EDOC0075 for information on EHW Trolleys.
- 5) “NPR” stands for “No Parts Required”. This means the trolley comes with the correct suspension parts and no additional parts are required.
