

ER/MR Integrated Mainline Contactor Application and Kit Information 1/8 Ton through 10 Ton

PURPOSE

To provide application and kit information for the ER/MR Integrated Mainline Contactor (IMLC).

REFERENCE

EDOC0289, ER/MR Integrated Mainline Contactor Kit Assembly/Installation Instructions

APPLICATION INFORMATION

- IMLC version for (N)ER and for (N)ERM
- IMLC is installed internally in the hoist or motorized trolley
- Pendant Control (with on/off switch) is not included in the kits.
- Hoists with IMLC's CAN be used with PT or GT manual trolleys.
- Variable frequency drives can be used on hoists with IMLC installed.
- IMLC's are for 110V control voltages only, they are NOT offered for other voltages.
- When using the IMLC in conjunction with other (N)ER or (N)ERM electrical options (ex. branch circuit fuses, radio remote, etc.), consult Customer Service to submit a request for compatibility (Blue Form).
