Notes:

1. In the column "Parts Per Hoist (Trolley)" a designator is used for parts that apply to a single speed trolley, dual speed trolley, or both. The designators are:

S = Single Speed
 D = Dual Speed
 S/D = Single Speed as well as Dual Speed
 P = Push Trolley
 G = Geared Trolley
 P/G = Push Trolley as well as Geared Trolley

2. Single speed parts are good for both 40 and 80 fpm trolleys (L and S models).
