

Purpose:

To provide the values of load vs. amperage draw for 1 ton TNER at 230V-3-60Hz.

Amperage Draw vs. Load for 1 Ton TNER at 230V-3-60Hz	
Load (Metric Ton)	Amperage Draw (A)*
0	4.3
1/4	4.4
1/2	4.7
1	5.6

*Amperage draw value is taken from the highest value experienced between lifting and lowering at each load.

The chart below shows the relationship between the load and the amperage draw for 1 ton TNER at 230V-3-60Hz.
